

{Big Opportunity}

{BIG IDEAS}

In Big Sky Country we're into Big Ideas, and Carroll's academic tradition fosters intellectual curiosity while preparing students for careers and life. Here—with power-house programs in the sciences, humanities, and social sciences—students explore ideas in cutting-edge labs and in bold literature, working closely with accomplished professors in an atmosphere of collegiality and respect. Learning takes place off campus as well with service learning and internship opportunities in the capital city's business and government community, as well as in Montana's great outdoors. The result is a vibrant intellectual experience that prepares graduates for successful careers and propels students into medical, law, and business schools, as well as other graduate programs, at exceptionally high rates. It's a reality that perfectly illustrates the College's motto, "Non Scholae Sed Vitae"—"Not for School but for Life".

{BIG HEART}

This is a place where the spirit is nurtured, and each person's spiritual growth fits directly into what our larger community seeks to accomplish together. While our campus is steeped in Catholic tradition, students of all faith backgrounds come together in the Carroll community, united by a desire to explore their beliefs as well as commit themselves to the service of others. Belief systems are explored in events like the "Search" spiritual retreat and service projects conducted throughout the year. Here, social justice isn't just something people talk about—students embrace it in all its forms as they work to improve the world around them, from the smallest local causes to those that affect the planet. At the same time, people of varying political and social views coexist easily with an underlying understanding of the interconnectedness of all people. This is a campus of respect, where no one's ideas are dismissed, and heartfelt expression is celebrated.

{BIG FUN}

New York may have its skyline, but so do we—towering mountains, soaring forests, rushing rivers—promising easy access to prime snowboarding, rock-climbing, whitewater rafting, and scores of other activities. Skirting the Continental Divide, Carroll students find themselves squarely between Yellowstone and Glacier National Parks. But for a taste of bright lights, Helena stands ready, offering the activities and nightlife that a capital city with a bustling professional class demands—fine restaurants, theater, galleries, art house movies, shopping, and a thriving bohemian café culture. On campus, a vibrant and friendly community awaits, as well as a wide selection of clubs and activities. Some students throw themselves into academic and political clubs while for others film festivals and Guitar Hero competitions are more to their liking. Carroll's athletic teams are top notch—with national and conference championships in football, men's basketball, women's basketball, and women's soccer. This is college life at its best.

Interested in a campus tour, an admission interview, catching a football game or attending a class in a subject of interest? More than just a visit, your time on campus is an opportunity to meet our students, faculty, and staff – and to enjoy our beautiful location. Campus tours are offered Monday through Friday, so contact us to reserve a tour time that suits your schedule.

In addition to individual visits, we have a few special programs available throughout the fall. Pre-Game Fridays (Oct. 24 & Nov. 7) and Super Saturdays (Oct. 18 & Nov. 8)

Please visit our website: www.carroll.edu or call 406.447.4384 to schedule an individual visit or sign up to attend one of our visit programs.

Carroll College welcomes you to discover what it means to learn and grow in our close campus community, where students of all faith traditions push themselves to achieve and learn as they carve out lives of meaning. Students benefit from our Helena location, enjoying unique internship experiences as well as the opportunities for all the fun our capital city location and nearby scenic wilderness have to offer.
